

Falkland in 20 years time?

Let's start shaping it now!

Come along to discover more
over tea and cakes
in the Village Hall
on Sunday 16th September, 2-5pm

We will be starting at 2pm promptly, please come for the whole time if you can.
There are toys/mats for young children to play if you wish to bring them along.

We'll talk about what is important to us about where
we live, perhaps how we can work towards -

- Improved public transport
- Affordable housing and local services
- Thriving local businesses
- Renewed identity and 'sense of community'
- Local renewable energy
- Promoting local skills and crafts
- Local food and short supply chains
- A living working landscape
- Making tourism work for us
- Shaping our own development
- Living within the capacity of the environment

And how we might begin developing a 10 or 20 year
plan for Falkland to ensure it is
a thriving and vibrant place to live, work and play.
