

## 'We're famous'

◆ **FOULS AT FALKLAND** House Sheldons have helped to fund a new water supply within Falkland Islands.

◆ A Victorian pond for a seawall, which had just

ingrained by the rains, has been brought to life. The pond had been provided by the Heritage Lottery Fund, along with other assistance from the Falkland Islands manager Colin Gibson.

The pond is to be used as an outdoor classroom for the island schools, while the surrounding area is expected to become home to native birds, ducks and moor.

◆ **FINISHED WITH STONE** The parish of St. Walsburgh, in the Falkland Islands, has been of relevance since the 19th century.

# Drumdreel Pond

**Feb 2009 – Work**

**Making Plans**

**Mar 2009- Collecting Brash**

### **History of Drumdreel Pond**

The mill pond helped power a sawmill in Victorian times as part of the industry that went on in Falkland Estate.

Pupils from Falkland House School have helped to restore the pond over the last two years.

The project received funding from the Heritage Lottery's Young Roots Programme.

Pupils worked with the Fife Coast & Countryside Rangers and Falkland Centre for Stewardship staff.

### **Some of the things done include:**

- Shrub clearance
- Tree planting
- Seed planting
- Creating paths
- Willow weaving
- Wildlife surveys
- Lots and lots of digging!

There's still work to be done at the pond, more willow will be added to the hide, carrying on surveys and some general maintenance of the pond.

Thanks to the pupils of Falkland House School, the pond has been restored - enjoy!
